11th Annual Report 2018

THE STATE OF THE ECONOMY

Pakistan's New Political Paradigm - An Opportunity to Make the Most of CPEC

Who we are?

The Shahid Javed Burki Institute of Public Policy at NetSol (BIPP) is an independent, not for profit institution which aims at: promoting rights and evidence based inclusive policy making; filling institutional void and professionalizing the key public policy areas; serving as a knowledge hub for policy analysis, development and implementation. BIPP's aim is to minimize this rationality deficit and produce leaders to bring tangible welfare gains for the citizens. Integrity and Commitment, pursuit of excellence, expanding horizons of competence and knowledge, working as a highly motivated and dedicated team constitute our core values.

12th Annual Report:

The State of the Economy: Pakistan's Development Strategy in a Rapidly Changing Environment

Introduction:

The report provides an overview of the economic

situation during 2018-19 and, inter alia, highlights the need for a paradigm shift to resuscitate the economy and put it on a sustainable path. It also comprehensively looks at the implementation status of various projects under the China Pakistan Economic Corridor (CPEC) framework and recommends specific measures to fully harness CPEC potential within the overall Road and Belt Initiative as a game changer for the country. The report, in particular, dwells on the evolving demand of China for agricultural and food products and scope for Pakistan to tap and access the rapidly expanding Chinese markets especially in the Western region. There is indeed a huge opportunity for Pakistan through CPEC connectivity to become a part of the regional value chains and global production networks. The report also strongly advocates transparency in CPEC management and the need to address the information deficit issues regarding CPEC activities. Excessive confidentiality and secrecy with regards to the dealings, negotiations and contracting CPEC projects besides belittling accountability, leads to poor investor participation in the program.
