

A Center of **Excellence** in Public Policy

BIPP

Policy for Present, Gains for Posterity
Reducing Deficit, Producing Results

**The Shahid Javed Burki
Institute of Public Policy at Netsol**

www.sjbipp.org

WHO WE ARE

The Shahid Javed Burki Institute of Public Policy at NetSol (BIPP) is an independent, not for profit institution which aims at: promoting rights and evidence based, citizens-people-centered inclusive policy making; filling the institutional void; professionalizing the key public policy areas; and, serving as a knowledge hub for policy analysis, development and implementation. The public policy and planning processes in Pakistan have been characterized generally by huge rationality deficit primarily owing to: the institutional fragmentation, a lack of serious analytical work, exclusivity and weak systemic nexus between education, research and policy formulation.

BIPP endeavors to minimize this rationality deficit and produce policy solutions for tangible welfare gains for the citizenry. Its Board of Directors include eminent experts, economists, academia and development practitioners from private, public and non-governmental sectors.

As such, BIPP represents a unique blend of expertise to enrich both upstream policy process and downstream implementation. The underlying goal of BIPP is not merely analytical input to policy making through research and intense studies but also to collate, generate, share and disseminate knowledge, best practices, models and methodologies for context specific implementation.

VISION

BIPP's vision is to become a Centre of Excellence and knowledge hub for policy analyses and leadership to facilitate robust policy making and implementation and produce leaders capable of transforming the lives of people.

WHAT WE BELIEVE IN - OUR MISSION

BIPP's mission is to improve the welfare of the citizenry with particular emphasis on identifying policy measures that will lead to inclusive, people-centered growth with equity, political stability and sustainable development besides fully harnessing the potential for regional and global integration of the country. BIPP primary areas of interest encompass social, economic, environmental and political development and security, trade and foreign policy related issues.

The Institute aims at synergizing the research, education, think tank and knowledge management functions to become a Centre of Excellence in Public Policy.

OUR CORE VALUES

Integrity and commitment, pursuit of excellence, expanding horizons of competence and knowledge, working as a highly motivated and dedicated team constitute our core values. BIPP by way of introspection and reflection seeks to constantly improve its working methods, tools and practices to achieve efficiency and productivity gains. One of our key values is building partnerships, alliances and coalitions with knowledge and research centers to generate and share ideas, use real-world experience and new knowledge, and act in concert and conjunction with others to influence the policy and decision processes for sustainable human development.

BOARD OF DIRECTORS

Mr. Shahid Javed Burki - Chairman

Mr. Burki is Chairman of SJB Institute of Public Policy at NetSol. He is one of the most prominent social thinkers and economists Pakistan has ever produced. He has been a member of the faculty at Harvard University, USA and served as the Chief economist, Planning and Development Department, Government of the Punjab. He has also served as Finance Minister of Pakistan (1996-97), and has authored many books and research papers on Pakistan. He also writes for general public and his views are regularly published by news media. He has had a long and distinguished career at the World Bank. Mr. Burki joined the World Bank in 1974 as a Senior Economist and went on to serve in several senior positions. He was the (first) Director of the China Department (1987-1994), making him responsible for managing the World Bank's dialogue with the Chinese authorities. He served as the Regional Vice President for Latin America and the Caribbean during 1994-1999. He retired from the World Bank in 1999.

Mr. Shahid Najam - Vice Chairman

Mr. Najam is the Vice Chairman of BIPP and has to his credit four Masters including LLM and MSc. Public Policy from London School of Economics, UK and MSc. Rural Development from Wye College London. He has more than 40 years of experience (17 years with Government of Pakistan and more than 22 years with the UN System) in policy and strategy formulation; development planning and programming; and, implementation of large scale programs for sustainable development. He joined the Pakistan Administrative Services in 1974 and held important assignments including Commissioner Lahore Division (1999-2001), the first Chief Operating Officer, the Punjab Board of Investment and Trade in August 2009 and Deputy Commissioner Sialkot (1985-1988). Mr. Najam worked with the UN system on senior positions including Chief of the Management Support Services covering a network of 133 field Offices (2002-2007), FAO Representative, Iran (2007-2009) and Resident Coordinator/Resident Representative of the UN system in Turkey (2009-2013). He led the formulation and implementation of UN Development Cooperation Strategy for Turkey (2011-2014), a pioneer initiative in the world to reposition UN system in the Middle Income Countries. He also conceived and concretized establishment of the UNDP Istanbul International Centre for Private Sector in Development.

Ms. Jahanara Burki

Mrs. Burki is a graduate of Kinnaird College, Lahore where she studied social sciences. She founded the Shahid Javed and Jahanara Burki Family Foundation in 2005 and took up the position of its President. Using the Foundation's funds, she became actively involved in a number of charitable organizations that focused on aiding educational and health activities in Pakistan. Her Family Foundation made large contributions to The Citizens' Foundation (TCF) and the Shaukat Khanam Cancer Hospitals. She is also assisting the development of a girl's school in Kohat, in the province of Pakhtunkhwa in Pakistan. The school is also being assisted by the World Bank.

As the newly elected member of the Shahid Javed Burki Institute of Public Policy (BIPP), she expects to use her experience in charitable organizations committed to educating girls from poor families to guide the BIPP in developing its recently launched program from giving scholarship to girls in Lahore from low-income families.

Delivering Happiness (DH)

Delivering Happiness (DH) DH has evolved from a New York Times® Best Seller to the world's first culture coach|sulting® [coaching + consulting] company. Since 2010, they have their expertise as pioneers of culture change using scientific happiness to create profitable, adaptable cultures in 350+ organizations around the world — including companies, such as Starbucks and Sallie Mae.

The key tenets of the Delivering Happiness methodology include:

1. **Science of Happiness:** research-backed principles, habits, and skills that create more authentic happiness and success.
2. **Values + Behaviors:** the core of what you stand for, plus the tangible actions necessary to back it up.
3. **Higher Purpose & Evolutionary Vision** that provides meaningful impact to employees, Teams, organization, clients and community.
4. **WOW Customer Service:** a values-based, purpose-driven customer service approach that provides intrinsic motivation to employees at all levels, delivering unique impact to the customer. We look forward to partnering with you.

Through their meticulous training they have provided a host of international organizations with the best HR and Institutional Restructuring solutions tailored to meet their needs for business enhancement and overall improved firm environment.

Strateasy Consulting

Strateasy founded in 2001 with a mission to redefine the management consulting to focus on delivering client results, not just reports. They are continuing to be innovators for our industry, with an entrepreneurial culture that is never satisfied with the status quo, for ourselves or for our clients.

They help in transforming companies and individuals. The word “transformation” gets thrown around a lot these days, but it can have different meanings for different individuals and companies. In a world of unprecedented disruption and market turbulence, transformation today revolves around the need to generate new values—to unlock new opportunities, to drive new growth, to deliver new efficiencies. All transformations require you to rethink how your enterprise creates value today and in the future. In other words, all transformations require you to think big. Why?

Because incremental improvement is not enough to win in today's exponentially disrupted business environment. Your organization requires sustained growth in the face of near constant disruption, and sustained growth requires agile reinvention. It's not enough to win today. You have to be able to continue to evolve in the future.

Community Development Foundation

CDF was formed in 2009 under the Societies Act, 1860. It aims to develop productive and educated societies that will in turn create impactful empowered and sustainable livelihoods. The organization has been involved in empowering youth, women and girls by using new technologies on enterprise development and business management by strong and independent community development programs at grassroots level. Its mission is to transform underprivileged and illiterate segments of society into effective, innovative and skillful labor through impartation of relevant education and skills. The main objectives of this institute includes: Build awareness of business innovations that accelerate youth & women's empowerment and have a real impact on the quality of life for women, men, families and communities; Create greater opportunities for women and men to secure decent employment and income; Identify key actions to address the financing gap for women's empowerment;

AKIDA Management Consultants

AKIDA has spearheaded and successfully managed and serviced many important small, medium & large, Private and Public Sector prestigious socio-economic and technical assignments, including those of action & evaluative research, capacity building, ISO 9000 QMS and MIS development inclusive many for International Organizations like USAID Pakistan and Afghanistan, The World bank, DFID, ILO, UNICEF, UNOPS and Rahnuma-FRAP. Earlier on, during 1980 -1986, the consultant worked on senior financial management positions in the UAE with Hawk Publish Ajman & Fertile-ADNOC (Abu Dhabi-National Oil Co.) Over the last many years, the Consultant is invited as a guest speaker at the prestigious institutions including MPDD (Management and Professional Development Department of GoPb), Pakistan Administrative Staff College (PASC) now National School of Public Policy (NSPP) Lahore, National Institute of Public Administration (NIPA now NIMS) & and a few prestigious others 1987 to date.
